

How can we offer our services for free?

Our state of the art website allows breeders to maintain their own records and do their own paperwork. Because the majority of our members can be self sufficient this cuts down on our costs.

All we ask from our members is that they tell other breeders about our registry, and encourage buyers to register their puppies. Surprisingly only a small percent of new puppy owners register their puppies. It's up to our members to encourage pet registration. Not only does pet registration assure a pet's heritage it also provides proof of ownership to a new pet owner.

No access to our website?

No problem. We still offer the same mail-in services offered by other registries with professional friendly customer service. All our employees are breeders themselves and are always happy to answer any questions. Our office hours are Monday thru Friday 8:00 to 5:00 central standard time. For complete information on how to register your kennel with us, please read the back of this brochure.
