Why Register?

Registering your new puppy is just one more step in becoming a responsible pet owner. Not only does it provide assurance of accurate genealogy, registering your new puppy is a record of documentation, which you will always have access to online through our website. Your registration is equivalent to a birth certificate of a child or a title to a new car. By registering your dog with Certified Pet Registration, your pet is recorded in our database and each dog is issued its own identifying pin number for tracking. In case your pet is ever lost or stolen, your registration will show proof of ownership.
