Your new puppy is eligible to be registered with Certified Pet Registration.

Avoid the late fee and register online

www.cpryourdog.com

Not only does registering your pet provide you assurance of accurate genealogy, it is also a record of documentation which is equivalent to a birth certificate of a child or a title to a new car.

By registering your dog with Certified Pet Registration, your pet is recorded in our database and each dog is issued its own identifying pin number for tracking. In case your pet is ever lost or stolen, your registration will record proof of ownership. When you register with Certified Pet Registration, you will always have online access to view your dog's information and re-print your certificates in case your original is lost.

- Distemper – DIS: an airborne viral disease of the lungs, intestines and brain.
- Hepatitis – HEP: a viral disease of the liver.
